PROFESSIONAL SUMMARY

I have always loved solving puzzles. The harder the puzzle, the more fun it is for me. I have recently started going to Full Sail University to get a Bachelor's in Simulation Engineering and so far it has been so much fun. Programming has become one of my most favorite things to do. I love learning about programming and I can't wait to experience everything that is out there. I have experience developing object-oriented applications using C++. Strong foundation in problem-solving, debugging, Git version control, and software development practices. Seeking opportunities to continue developing technical skills through academic and personal projects.

TECHNICAL SKILLS

Programming Languages: C++, HTML, CSS

Software & Tools: Visual Studio, Git, GitHub, Microsoft Office

Technical Concepts: Object-Oriented Programming, Classes & Objects, Functions, Loops, Input Validation, Debugging, Version Control, Pull Requests

TECHNICAL EXPERIENCE

Current Course Project

- Developed a C++ console application using object-oriented programming.
- Implemented multiple classes, functions, and user input validation.
- Used Git and GitHub for version control using commits, branches, and pull requests.
- Tested, debugged, and refined the application through iterative development.
- Created technical documentation and a project demonstration.

PROJECTS

NotSoMARVELous

The project was a fighting game that allowed the user to select a hero, weapon, and armor; and the villain was randomly selected. Each character had a certain amount of health and damage. The weapons and armor added or subtracted health and damage depending on what you select. You would then fight and choose to either attack or defend until either the hero or villain died.

Technologies: C++, Visual Studio, Git, GitHub

EDUCATION

Full Sail University

Bachelor of Engineering in Simulation Engineering

Expected Graduation: March 2028

Relevant Coursework:

- Programming Fundamentals
- Object-Oriented Programming
- Software Development
- Version Control

EXPERIENCE (OPTIONAL)

Technical Experience
